

# SUNSHINE PEOPLE

a twist on Don't Stop Believin' by DS

A | E | F#m | D (2x as intro, then throughout entire song)

Just a small-town band, tappin' feet and strummin' hands,  
They take the openin' stage singin' anywhere.

Just another ear, wonderin' what it's gonna hear,  
Out to see another show playin' anywhere.

Whistlin' on a grassy hill, smell of rain and daffodils,  
Do you wanna share a smile, it goes on and on and on and on.

Stranger listenin' up and down these trails we walk on,  
Their shadows searching in the night.

Sunshine people, here to set the world in motion,  
Dancing somewhere in the light.

Workin' hard to get your fill, anyone remember such a thing as thrill?  
Payin' anything for the kids to hold still, still, still, still, still.

Some will win, some will lose, and some just wanna regurgitate the blues, yeah,  
But there's a song that never ends, it goes on and on and on and on.

Strangers listenin' up and down these trails we walk on,  
Their shadows searching in the night.

Sunshine people, here to set the world in motion,  
Dancing somewhere in the light.

Keep on believin' -- hold on to that feelin'  
Sunshine people.

Keep on believin' -- hold on to that feelin'  
Sunshine people.

**Loop chord pattern twice for solos (8 bars)**

Keep on believin' -- hold on to that feelin'  
Sunshine people.

**(Loop chord pattern to end, and end on D)**
